

C3's Vu-Scape is designed specifically to optimize the illumination of graphic images. Its unique side hinge enables easy graphics change-out. The thin profile provides a contemporary look and meets ADA standards.

Like all products from C3 Lighting, our graphic illuminators use the innovative ION™ Light Engine. The unique Class 1 Power Package reduces installation costs. Available with Tunable-White illumination. In addition, these graphic illuminators consume a minimum of 65% less energy than similar illumination from T-8 fluorescent lamps. RFI/EMI free, non-ferrous construction allows mounting in sensitive areas.
